About Us

Green Securities, a division of Green Reef Pvt. Ltd., is a leader in Cybersecurity, ESG Compliance, and Business Sustainability solutions. We empower organizations to safeguard their digital assets, adhere to regulatory requirements, and drive sustainable growth in an evolving digital landscape.

As a descendant of Green Reef Pvt. Ltd., we uphold a legacy of innovation and trust, delivering cutting-edge solutions that strengthen security frameworks and align businesses with global sustainability standards. Our expertise ensures that enterprises remain resilient, compliant, and future-ready, fostering responsible business practices while mitigating risks. At Green Securities, we are committed to securing a sustainable and digitally secure future for businesses worldwide.

Our Core Solutions

Cybersecurity Solutions

ESG & BRSR Compliance

Environmental, Social, and Governance

Business Responsibility and
Sustainability Reporting

Importance of Cybersecurity Solutions

Cybersecurity solutions play a crucial role in protecting businesses from evolving cyber threats and ensuring operational resilience. Threat Monitoring & Incident Response enables real-time detection and rapid mitigation of security breaches, minimizing disruptions. Risk Assessments & Compliance Audits help organizations identify vulnerabilities, adhere to regulatory requirements, and strengthen security frameworks. Penetration Testing & Vulnerability Management proactively detects weaknesses, preventing potential cyberattacks before they occur. Additionally, Cloud & Network Security safeguards critical data and IT infrastructure, ensuring secure operations in an increasingly digital world. Implementing these cybersecurity measures is essential for protecting digital assets, maintaining compliance, and ensuring business continuity in today's threat landscape.

Our Solutions

- 01. Security Operations Center (SOC) –**
24/7 monitoring and threat detection to protect your organization.
- 02. Managed Detection and Response (MDR)**
– Proactive threat hunting, detection, and response to cyber incidents.
- 03. Cloud Security Posture Management –**
Ensuring cloud infrastructure security and compliance.
- 04. Network Security Monitoring –**
Continuous traffic analysis to detect and mitigate threats.
- 05. Vulnerability Management Program –**
Identifying and addressing security weaknesses before they're exploited.

Our Solutions

06. Identity Access Management – Secure access control to prevent unauthorized entry.

07. Endpoint Detection and Response – Real-time threat detection and response for endpoint devices.

08. Threat Intelligence Services – Actionable insights to stay ahead of evolving cyber threats.

09. Data Loss Prevention – Preventing sensitive data breaches and unauthorized access.

10. Security Information Event Management (SIEM) – Centralized security log analysis for rapid threat response.

11. Zero Trust Security Framework – Verifying every access request to enhance security.

12. Application Security Testing – Identifying vulnerabilities in applications before deployment.

13. Insider Threat Management – Detecting and mitigating risks posed by internal users.

Our Solutions

14. Incident Response Service – Rapid containment and recovery from cyber incidents.

15. Compliance Management Service – Ensuring adherence to industry security regulations.

16. Third-Party Risk Management – Assessing and mitigating risks from vendors and partners.

17. Web Application Firewall Service – Protecting web applications from cyber threats.

18. Email Security Service – Preventing phishing, spoofing, and email-based threats.

19. Mobile Device Security – Safeguarding corporate data on mobile devices.

20. Cloud Access Security Broker – Enhancing security for cloud applications and services.

21. Penetration Testing Service – Simulated cyberattacks to identify security gaps.

Our Solutions

22. **Ransomware Protection** – Preventing, detecting, and responding to ransomware threats.

23. **Security Orchestration (SOAR)** – Automating threat response for faster remediation.

24. **Digital Forensics** – Investigating and analyzing cyber incidents for evidence.

25. **Fraud Prevention** – Detecting and mitigating fraudulent activities in real time.

Why is ESG & BRSR Compliance Required?

ESG (Environmental, Social, and Governance) and BRSR (Business Responsibility and Sustainability Reporting) ensure regulatory compliance, investor confidence, risk mitigation, and sustainable growth. They enhance brand reputation, access to capital, and long-term business resilience.

Government Mandate

SEBI has made BRSR mandatory for the top 1000 listed companies from FY 2022-23, replacing BRR. Companies must disclose ESG performance under nine principles of the National Guidelines on Responsible Business Conduct (NGRBC), covering environmental impact, governance, and social responsibility.

Impact

- Aligns businesses with global ESG standards.
- Attracts ESG-conscious investors.
- Reduces risks related to climate, governance, and social issues.

ESG & BRSR compliance is now essential for corporate sustainability and long-term value creation in India.

Our ESG & BRSR Services

- *ESG Data Management & Reporting Automation*
- *Carbon Footprint & Energy Management Solutions*
- *Governance & Compliance Management*
- *Social Impact & Workplace Solutions*
- *ESG & BRSR Audit & Assurance Support*

Why Choose Us?

- ✓ Innovative Security Solutions – Advanced cybersecurity to protect businesses.
- ✓ Full ESG Compliance – Ensuring sustainability with global standards.
- ✓ Industry Expertise – Years of experience across BFSI, healthcare, retail, and more.
- ✓ 24/7 Support & Monitoring – Continuous protection and compliance guidance.

Our Industry Focus

01

Banking & Financial Services (BFSI)

02

Healthcare & Pharmaceuticals

03

Retail & E-Commerce

04

Manufacturing & Industrial Sectors

05

Defense & Law Enforcement

06

Technology & IT Enterprises

Tanay Mukherjee – Cybersecurity Expert & Data Protection Specialist

- ◆ 14+ years in cybersecurity, ethical hacking & digital forensics
- ◆ Assisted CID Kolkata & WB Police in cybercrime investigations
- ◆ Advised global clients on GDPR, ISO 27001, HIPAA compliance

Expertise

- ✓ Penetration Testing & Risk Assessment
- ✓ Digital Forensics & Incident Response
- ✓ Cloud & Application Security

Securing businesses & law enforcement against cyber threats.

Ambalika – Innovating in Cybersecurity & ESG Compliance

- ◆ 12+ years of entrepreneurship driving tech-led business growth
- ◆ MD, Green Reef Pvt Ltd | Offshore Director, Green Reef Canada
- ◆ Expertise in cybersecurity, ESG compliance & digital transformation

Expertise

- ✓ Cybersecurity & Compliance – Strengthening security & regulatory adherence
- ✓ ESG Governance – Implementing tech-driven sustainability frameworks
- ✓ Business Growth – Expanding markets through digital strategies
- ✓ Leadership & Innovation – Integrating cybersecurity, ESG & transformation

Empowering businesses with secure, sustainable, and scalable solutions.

Sakil Gayen – Ethical Hacking & Cybersecurity Specialist

- ◆ Certified in penetration testing & network security
- ◆ Expertise in ethical hacking, SCADA security & risk management
- ◆ Strong foundation in cybersecurity compliance & governance

Expertise

- ✓ Ethical Hacking & Penetration Testing – Identifying & exploiting vulnerabilities
- ✓ Industrial Cybersecurity – Securing SCADA, OT & industrial networks
- ✓ Risk Management & Compliance – Ensuring adherence to security frameworks
- ✓ Network Security & Firewalls – Strengthening enterprise cyber defenses

Building secure digital infrastructures through expertise & innovation.

Nurjaman Hussain - VAPT (Vulnerability Assessment & Penetration Testing)

CEH – Certified Ethical Hacker

C3SA – Certified Cloud Security Associate

CNSP – Certified Network Security Practitioner

Soumil Sen - Industrial & Network Cybersecurity Specialist

- ◆ EJPT – eLearnSecurity Junior Penetration Tester (INE Security)
 - ✓ Fundamentals of penetration testing & ethical hacking
 - ✓ Hands-on experience with Nmap, Wireshark, Metasploit & Burp Suite
 - ✓ Ideal for beginners in VAPT, a stepping stone to CEH, OSCP & EWPT
- ◆ ICCA – Industrial Cybersecurity Certified Associate (ISA)
 - ✓ Securing ICS & SCADA networks against cyber threats
 - ✓ Expertise in OT security, incident response & compliance
 - ✓ Essential for critical infrastructure & industrial cybersecurity professionals

Anumita Das – Industrial & Network Cybersecurity Specialist

- ◆ Certified in ICS/SCADA & Network Security
- ◆ Expertise in OT security, threat mitigation & compliance
- ◆ Hands-on experience in penetration testing & risk management

Certifications

- ◆ CCA – Industrial Cybersecurity Certified Associate (ISA)
 - ✓ Securing ICS/SCADA & critical infrastructure
 - ✓ OT security, compliance (NIST, IEC 62443)
- ◆ CNSP – Certified Network Security Practitioner (Network Security Academy)
 - ✓ Network security, firewalls & intrusion detection
 - ✓ Penetration testing & threat mitigation

Strengthening cybersecurity in industrial & enterprise networks.
